BIG LANDSLIDE IN NEW YORK STATE

John A. Dix, Democrat,
Elected Governor
Yesterday.

MAJORITY 100,000.

Stimson, Republican Candidate, Concedes
Dix's Election—Whole State Ticket
Elected—Dix Carries Roosevelt's Own
District—Election of Democratic Gov-
ernor in Massachusetts Assured—Oth-
er Gains—Results in This State.

A Democratic landslide swept the en-
tire state of New York yesterday and
resulted in the election of John A. Dix,
Democratic candidate for governor, over
his opponent, Henry L. Stimson by a
majority of over 100,000. Stimson has
conceded Dix's election. In Massachu-
setts the Democrats elected Eugene N.
Foss over Gov. Draper, Republican.

Democrats made considerable gains
in a number of other states in the coun-
try. The returns were not in sufficient-
ly last night to ascertain whether the
complexion of the next Congress would
be Democratic or Republican and the
votes will have to be counted in several
close states before this is determined.
Both parties are claiming the majority,
but admit that it will be small.

The interest in the election in New
York and Massachusetts was quite pro-
nounced in Greensboro and The Telegram
was kept busy for a while last night
posting those who called at the office
or phoned for the latest news. Bulletins
were received nearly every minute and
each one showed great Democratic gains.
Below are some of the more important
bulletins received:

New York, Nov. 8.—Associated Press
says at 9:20 o'clock Stimson sent a
telegram to Dix: "The present returns
clearly indicate your election. I con-
gratulate you and send you my good
wishes for success of your administra-
tion."

New York.—The New York Times
tower flash light gives Dix as elected
and says the Democratic victory will be
of landslide proportions.

New York.—Henry L. Stimson said
at 8:30 o'clock tonight: "I haven't seen
up hope yet, but things look bad up
State."

Oyster Bay.—Stimson was beaten in
Roosevelt's own election district. Vote
was Stimson 158, Dix 218. This indicates
Republicans will barely carry county.

New York.—Conway, Democratic
lieutenant governor, is running slightly
behind Dix in New York city.

New York.—1441 election districts out
of 3058 in state outside New York city
gives Stimson 225,736, Dix 209,325. Same
in 1908 gave Hughes 285,641, Chanler
(Dem.) 231,408.

Greater New York.—Returns from
1610 districts out of 1700 give Stimson
176,414, Dix 285,163, Hopper 39,708.

New York.—1616 election districts out
of 3058 in New York State outside city
of New York give Stimson 247,581, Dix
227,980. Same districts in 1908 gave
Hughes (Rep.) 314,620, Chanler (Dem.)
250,925.

Greater New York.—440 districts out
of 1700 gives Stimson 37,402, Dix 64,541.
Brooklyn Eagle signals election Dix.
Democratic plurality in Brooklyn will
be in the neighborhood 27,000. Demo-
cratic plurality in greater New York
about 107,000. Indications are whole
Democratic state ticket elected.

Buffalo.—Buffalo complete, Stimson
26,513, Dix 31,183.

Hornell City, N. Y.—Complete gives
Dix 229 plurality; in 1908 Hughes car-
ried the city by 174.

Greater New York.—1530 districts out
of 1700 give Stimson 175,760, Dix 270,
814, Hopper 37,499.

Boston.—In 625 out of 1068 election
districts, including Boston, give Draper,
(Rep.) 103,470, Foss (Dem.) 124,019. In
1908 Draper 102,010, Vahey 101,300.

Boston.—Associated Press says Gov.
Draper gave out a statement tonight
and conceded the election to Foss by
substantial plurality and congratulating
him.

Boston.—Forty cities and towns in
Massachusetts give Draper (Rep.) 6,993,
Foss (Dem.) 5,372. Same cities and
towns in 1908 gave Draper (Rep.) 7,702,
Vahey (Dem.) 4,802.

Boston.—Returns for governor in State

election today from 118 election dis-
tricts outside Boston give Draper (Rep.)
21,378, Foss (Dem.) 21,372. Same places
in 1908 gave Draper (Rep.) 17,814,
Vahey (Dem.) 13,091. These returns
show a Democratic gain of 28 per cent.

Boston.—The city of Boston complete
gives Foss (Dem.) 55,169, Draper (Rep.)
27,902. Foss plurality in the city 27,
265.

Omaha, Neb.—Victor Rosewater, Re-
publican national committeeman con-
cedes Douglas county to Dahlman by
7000 but claims Aldrich's election.

New Haven, Conn.—102 towns out of
168 give Goodwin, (Rep.) 40,683, Bal-
win (Dem.) 43,424.

St. Paul, Minn.—Republican Congress-
men elected in Third, Sixth and Seventh
districts.

Danville, Ills.—Associated Press says
early returns indicate the reelection of
Speaker Cannon in the Eighteenth dis-
trict by a slightly reduced plurality over
William L. Cundiffe, Democrat.

St. Louis.—Weather ideal throughout
state and heavy vote polled. Greatest in-
terest in prohibition amendment and
candidates for Congress.

Baltimore.—Scattered returns from
every district in the state indicate re-
election of Covington (Dem.) First, Con-
gressman Talbot second.

Pittsburg, Pa.—The early returns from
Allegheny county indicate the Republi-
can State ticket run ahead of preelec-
tion claims of state committee.

Hardford.—Fifty towns in Connecticut
give Baldwin (Dem.) 24,611, Goodwin
(Rep.) 22,705.

Cincinnati.—Congressional First dis-
trict, Nicholas Longworth (Rep.) elected.
Austin, Tex.—The entire Democratic
ticket for state officers has been elected
by majority larger than those given
Gov. Campbell two years ago. All Demo-
cratic congressional nominees were elected.

Guthrie, Okla.—Early reports for
Oklahoma indicate the result on the
state ticket would not be known for
many hours.

Jacksonville, Fla.—Early returns show
local optionists in lead on proposition
for prohibition amendment to the con-
stitution. All Democrats elected.

Memphis, Tenn.—Early returns from
country districts in Tennessee show a
surprisingly light vote today.

Little Rock, Ark.—Democrats made
clean sweep in today's congressional
election, electing all nominees. A fair
vote was polled.

Virginia.—Ninth district, Bristol City,
Slemp's majority 275. Seventh district,
Hays (Dem.) majority in the district
about 4,000.

Virginia.—At 10 p. m. the situation is
as follows: The Fourth, Sixth and
Eighth and Tenth districts are recarried
by the Democrats without opposition.
The First, Second, Third and Seventh
are recarried by the Democrats against
slight opposition. The Fifth is claimed
by both parties but from the best in-
formation obtainable which is largely
official Judge Saunders is beaten by prob-
ably 150 majority in the Ninth with
hardly one half of the district reported.
Stuart leads Slemp by a majority of
1,200.

Virginia.—Fifth district, Carroll coun-
ty, will give Parsons between 875 and
900 majority. Saunders' majority in
Henry county and city of Danville 850.
Parsons majority in Carroll county,
Grayson and Patrick 1700. Franklin
and Pittsylvania not heard from but
Saunders carried those counties in 1908
by majority of 789. Unless he increases
his former majority in these two coun-
ties he has probably lost the district by
from 200 to 400.

Virginia.—Fifth district, Patrick coun-
ty, Parsons' majority about 300 his ma-
jority in Grayson county with two pre-
cincts to hear from gives Parsons ma-
jority of 470. His majority in the coun-
ty estimated at 540, a Democratic loss
of 65.

Virginia.—Election in Virginia today
for ten Congressmen. In four districts
the Democratic nominees held no oppo-
sition. The strongest fights were in
the Fifth and Ninth particularly the lat-
ter, where the present Republican in-
cumbent was opposed by Hon. C. Henry
Stuart, Democrat. Meagre returns from
Pittsylvania county indicate a small ma-
jority for Saunders, full vote not polled.
In Washington county, Ninth district,
returns slow. County claimed by both
sides by very small majorities.

Virginia.—Ninth district complete re-

turns from Wythe county gives Slemp
one majority, a Democratic gain of 530.
Stuarts majority in Washington county
150, a Democratic gain of 330, the Demo-
cratic gains in Bland, Giles, Pulaski,
Russell, Washington and Wythe coun-
ties are 2,000. The Republican majority
in the district in 1908 was 4,101.

Virginia.—Stuart's estimated majority
in Giles county 225. City Danville. Com-
plete Saunders 972, Parsons 219, Demo-
cratic loss of 44.

Virginia.—Ninth district, Pulaski coun-
ty heavy vote polled. Stuart's estimat-
ed majority over Slemp 200 to 250.
Slemp majority in 1908 over Brayn's
71.

Russell county full vote polled.
Stuart's estimated majority in county
about 300. Slemp's majority in Russell
in 1908 was 363.

Des Moines.—Associated Press says
Republicans claim all congressional dis-
tricts except the Second, Fourth and
Sixth.

Topeka, Kans.—Early returns are so
fragmentary as to give little indication
of how Kansas voted today.

Columbia, S. C.—Democratic state and
congressional tickets were elected by the
usual majority.

Concord, N. H.—Out of 290 election
districts in New Hampshire returns from
121 for governor gives Bass (Rep.)
1296, Carr (Dem.) 1106. In 1908 Quim-
by (Rep.) received 1354, Carr (Dem.)
1237.

Cleveland, O.—Associated Press says
Maurice Maschke, Republican leader,
concedes Cuyahoga county, Ohio, to Har-
mon.

Chicago.—Associated Press says re-
turns for more than one hundred pre-
cincts in Chicago, according to city press
association, indicate Democratic land-
slide.

Des Moines, Iowa.—Early returns
from scattered Iowa precincts show
small Democratic gain over 1908 while
there is decided loss for Republicans it
there is evidently a large stay at home
element among Ohio Republicans.

In North Carolina.
Raleigh.—Wake county gives twelve
hundred Democratic majority in spite of
local factions for state and county
ticket and eight hundred for Dr. E. W.
Sykes, State Senate, on whom Republi-
cans and Democrats bolters made hard-
est fight. This, the Fourth Congress-
ional district, reelects Pou, Democrat, over-
whelmingly.

Raleigh, Nov. 8.—Returns from Eighth
district indicate marked Democratic
gains. Cowles, (Rep.) for Congress car-
ries his home county of Wilkes by only
1200, a decrease of 400 and his 1400 ma-
jority will be decidedly eliminated by
returns from other counties. Returns
from First district indicates that ma-
jority of Small (Dem.) will reach 7,
000.

Raleigh.—Only interesting districts in
North Carolina in congressional fight
are Third, Fifth, Eighth and Tenth. Re-
turns from Third meagre. Butler (Rep.)
carries his own county (Sampson) by
fifteen hundred which is Republican gain
of 500. Returns from Fifth district car-
ried last time by Morehead show large
Democratic gains of Stedman over Blair.

Raleigh.—Returns from the eleven out
of thirteen counties in Tenth district
show majority for Gudge (Dem.) of
800 over Grant (Rep.), who carried dis-
trict two years ago by 361.

Raleigh.—Eighth district congress-
ional returns show notable Democratic
gains over two years ago when Cowles,
(Rep.) defeated Hackett (Dem.) This
year Doughton, (Dem.) overturns Re-
publican majorities in Cabarrus and
Stanley. Returns are yet meagre. Tenth
district returns very incomplete as yet.
Indicates result close with slight Demo-
cratic gains. Returns from various sec-
tions of State indicate that vote for
State officers run closely with that for
Congressmen.

Raleigh.—Returns First district show
Small, (Dem.) defeats King by about
usual majority. Second district Kitchin
(Dem.) elected over Norfleet by usual
majority. At Kitchin's home town no
Republican votes were cast.

Raleigh.—Tenth district congressional
vote Gudge, (Dem.) making gains over
Grant (Rep.) Cherokee county carried by
Grant by reduced majority. Gudge car-
ries Buncombe by usual majority.

Raleigh.—Weather extremely fine all
over North Carolina. Returns so far
received show rather heavy vote for off-
year. Election quiet; only one killing
reported, this occurring at rural precinct
in this (Wake) county.

Raleigh.—Democrats carried Cumber-
land county by increased majority de-
spite falling off of rural vote. Republi-
cans polled very light vote in Fayette-
ville. Anson county elects all Demo-
crats by estimated majority of 1500,
gain over 300. Warren Democratic by
900. Republicans casting less than hun-
dred votes.

DEMOCRATS POLL USUAL MAJORITY

Believe Slight Gain is
Made in County.

County Chairman Sherrill Thinks the
Average Majority Will Be Larger Than
It Was Two Years Ago—The Returns
Slow Coming In—Vote in City Nearly
As Heavy As Two Years Ago—Every-
thing Passed Off Smoothly.

The election passed off quietly in
Greensboro and except in the immediate
vicinity of the polls there was not the
slightest evidence that an election was
being held. The voting was considered
heavy for an off year, nearly as many
participating as did two years ago. The
polls opened up at sunrise and closed at
sundown. There was not a suspicion
of disorder anywhere in the city.

The workers were unusually busy yes-
terday, which accounts for the large
vote. The greatest interest centered in
the election of a congressman and
friends of both candidates were unceas-
ing in their efforts. The Republicans
had conceded the county offices to the
Democrats so all efforts were directed
to securing the largest vote for congress-
man and the candidates for solicitor.

The returns were slow coming in last
night and in fact but a few precincts
outside of Greensboro and vicinity and
High Point were heard from in any-
thing like an official way. However,
the returns in indicate that the Demo-
cratic majority will be some larger than
it was two years ago. The majority
in Greensboro, North Gilmer and South
Morehead was about 1,000. Seven or
eight of the precincts are still to be
heard from and several others have not
reported officially.

The vote for state officers was about
like that of the county officers with here
and there a falling off.

cincts, North Gilmer and South More-
head follow:

Horse Killed by Train.
The Dixie Ice & Coal Company had a
valuable horse killed by a train, yester-
day. The animal was hitched at the
rear of the company's plant on West Leo
street and broke loose. It got in the way
of No. 26.

Imperial Fifth Con-
gressional District
Redeemed.

MAJORITY OVER 3,000

Republican Candidate David H. Blair
Carries Home County by Only 150
Majority—Major Stedman's Majority
in Guilford Over 1100—Granville, Dur-
ham and Rockingham All Roll Up
Handsome Majorities.

Maj. Chas. M. Stedman was yesterday
elected as Congressman from the Fifth
Congressional district, defeating his op-
ponent, Republican Candidate David H.
Blair, by a majority of at least 3,000.
The Democracy of the district sprang
into action yesterday and the Imperial
Fifth was redeemed.

Mr. A. W. Cooke, Major Stedman's
manager, last night claimed a majority
of 3,500 and according to the figures
obtained from prominent Republicans
the majority will be at least 2,500. At
Republican headquarters nothing was
given out, Mr. Blair stating to a reporter
that he had not heard enough to make
any claim as to his strength. He would
neither claim a majority nor concede to
his opponent the victory.

Chairman Cooke received semi-official
returns from all the counties excepting
Stokes and Surry and he gave Mr. Blair
a comfortable majority in each of these
counties. The majority by counties fol-
lows:

	Stedman	Blair
Albany	375	
Cuswell	523	
Durham	700	
Forsyth		100
Guilford	1160	
Granville	1100	
Orange	150	
Person	150	
Rockingham	650	
Stokes		400
Surry		600
Totals	4710	1300

Stedman's majority, 3,510.

The Republicans, it was learned, unof-
ficially claim a majority of 500 in
Forsyth, and 1500 in Surry and in case
this was true Major Stedman would
still have a majority of 2,250. But in
Mt. Airy, where Mr. Morehead's ma-
jority two years ago was 123, Major
Stedman's majority was 157 over Mr.
Blair.

In the county Major Stedman's ma-
jority will be in the neighborhood of
1200. In Greensboro, North Gilmer and
South Morehead Major Stedman polled
a majority of 913 votes, 799 being given
in Greensboro. In his home precinct
Major Stedman received a majority of
204 votes, while No. 4 gave him a ma-
jority of 268. In High Point his ma-
jority was only 153. At Proximity a
majority of 62 votes was polled.

It is believed that when the official re-
turns are all in Major Stedman's ma-
jority will be from 2,500 to 3,000, these
figures being regarded as most conser-
vative.

His entire vote in the county was 3,
038, while Mr. Blair's vote was 1878.

New Building Occupied.

The new music building at Greensboro
Female College was occupied yesterday
and in the future the music classes will
meet there. The building, which was
erected at a cost of \$10,000, is a hand-
some brick structure and contains fif-
teen rooms, all of which are fitted in the
most modern manner. For some time
additional room has been needed for the
music department, which has grown
wonderfully during the past few years.

Death of Mary Lindsay Faulconer.

Mary Lindsay, the little daughter of
Mr. and Mrs. F. L. Faulconer, of 200 S.
Spring street, died yesterday afternoon
at 5:15 o'clock after a few days' ill-
ness with a maffling stomach trouble.
The little girl was four years of age
and was an exceptionally sweet and at-
tractive child. She was the only child of
her parents and her death comes to
them as a crushing sorrow.

DIABETES

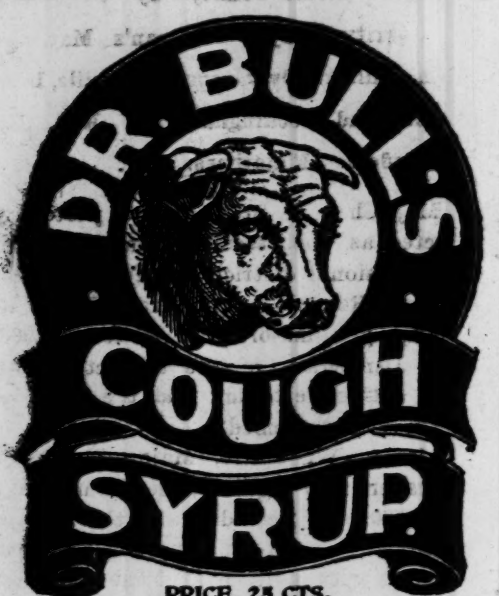

From late figures the hope of recovery under the new emollient treatment seems to be about as follows:

In people of sixty and over results are quite uniform, probably nine-tenths recovering. While at fifty and over a large majority of all cases yield to the treatment, below fifty and approaching forty the disease gets more stubborn, and between thirty and forty the percentage is not high—probably not much over half yielding.

Under thirty the percentage is less and in children recoveries have been very few and most of those were obtained with the aid of skilled physicians forcing nutrition, with alkaline treatment to prevent formation of acetones.

The new emollient treatment is known as Fulton's Diabetic Compound. It can be had in Greensboro at Fariss-Klutznick Drug Co.

We desire every patient to write us who is not noting the usual improvement by the third week. Always state age. Literature mailed free. Jno. J. Fulton Co., 646 Battery street, San Francisco, Cal. We invite correspondence with physicians who have obstinate cases.

Farms and Town Lots For Sale.

Pursuant to an award made in the case of J. A. Hardin and his wife, Susan M. Hardin, vs. J. Henry Phipps, the undersigned will, on the 21st day of November, 1910, at 12 o'clock m., sell to the last and highest bidder, by public auction, in front of the County Court House door in Greensboro, North Carolina, the following lands:

(1) An undivided one-half in about three (3) acres of land and a mill thereon, known as the Finley Shaw or S. W. Phipps mill.

(2) The S. W. Phipps home-place (where he died) containing approximately one hundred and ninety (190) acres, adjoining the W. A. Job place on the southwest, the Frank Thom place on the north, and Allen Hardin on the extreme west, and others.

(3) Another place owned by S. W. Phipps at the time of his death, purchased by him from his father, S. W. Phipps, and adjoining the tract above described, and Robt. Starr on the north, Mrs. Jessie Phipps on the east and on the south and west by the lands of the W. H. Phipps heirs, and containing approximately one hundred and sixty (160) acres.

All the above lands lie in Clay Township, Guilford county, and the two tracts last above described are north of and within about one-half mile of the main road leading from Greensboro to Kilmerville, and about an equal distance from and south of a new road going in a southeasterly direction from Greensboro, passing through the farm of John Jones, Esq., and others.

Tracts Nos. 2 and 3 will be first sold separately; then offered together; with the right in the undersigned to close the sale in the manner that brings the most money.

(4) A lot lying on the east side of Pearson street in the City of Greensboro, and bounded by the lands of Mrs. Susan M. Hardin on the south, on the north by the lot of Chas. Wooten, fronting 80 feet on Pearson street, and extending back east 150 feet.

Terms of Sale—One-third cash, one-third in one year and one-third in two years, with interest on deferred payments from date of sale till paid, at the rate of 6 per cent. per annum, payable semi-annually; title retained till all the purchase money is paid, with the right in the purchaser to pay his bid in cash without discount.

This sale is not open to an advanced bid, but is final.

This October 18th, 1910.

TO MAKE LAND PAY.

Intensive Farming Brings Very Large Returns.

Alian L. Benson in Delinctor.

A living can be made from land in these ways:

1. By having much land. If one has much land, and is content with a poor living, he may do the minimum of work. The surplus of the land will make up for the deficiency of labor. He can let beef cattle fatten on the grass while he loaf. He can till ever so poorly and still be alive at the end of the year.

2. By having less land and working more. Nothing except land and labor can make crops, and if the land be diminished in area, labor must be increased both in volume and intelligent purpose. The man who seeks a living from a 40-acre farm cannot sit down until the beef cattle fatten themselves into steaks. He must sow and cultivate. He must also have a glimmering of the fact that it is not well to keep the same crop in the same field year after year.

3. By having a little land—five or ten acres—and understanding it; by caring for it as an engineer would care for a great machine that he perfectly understood and wanted to drive to its capacity; by making up for a deficiency of land with an abundance of intelligent labor.

The five or ten acre farm is precisely as feasible a method of making a living as the 80-acre farm. The miniature simply must be worked in a different way. It must be devoted to crops in the raising of which can be packed the labor and the knowledge that alone can compensate for lack of land. Not much labor can be put into the growing of a small patch of wheat or of a few beef cattle; therefore, the small farm must be devoted to raising of little things that bring big prices; little things that will not even grow unless coddled and teased. Vegetables, berries and fruit require little land, but much intelligent labor. They bring good prices. Vegetables, berries and fruit are, therefore, the crops with which any man can make a small farm that he could attempt to till with his own labor.

Not Sorry for Blunder.

"If my friend hadn't blundered in thinking I was a doomed victim of consumption, I might not be alive now," writes D. T. Sanders, of Harrodsburg, Ky., "but for years they saw every attempt to cure a lung-racking cough fail. At last I tried Dr. King's New Discovery. The effect was wonderful. It soon stopped the cough and I am now in better health than I have had for years. This wonderful life-saver is an unrivaled remedy for coughs, colds, lagrippe, asthma, croup, hemorrhages, whooping cough or weak lungs. 50c. \$1.00. Trial bottle free. Guaranteed by Fariss-Klutznick Drug Co.

WOMEN WILL WATCH AT POLLS.

Are Clothed With Authority in New York to Act as Challengers.

Emphasis is laid upon the fact that women have equal rights with men to act as watchers and challengers at tomorrow's election in general order No. 65, containing final instruction to the Police Department, issued by Commissioner Cropsey yesterday.

This is the first time that, under the law, members of the fair sex have been clothed with the authority to aid by their presence in securing an honest ballot and a fair count.

Hundreds of them have volunteered to serve, and citizens who sincerely desire that none but legal voters shall vote and that votes shall be counted only as cast, hope that the depredations of gangs of "tin soldiers," which have elected so many Tammany candidates, will be minimized, if not actually wiped out.

Will Promote Beauty.

Women desiring beauty get wonderful help from Bucklen's Arnica Salve. It banishes pimples, skin eruptions, sores and boils. It makes the skin soft and velvety. It glorifies the face. Cures sore eyes, cold sores, cracked lips, chapped hands. Best for burns, scalds, fever sores, cuts, bruises, and piles. 25c. at Fariss-Klutznick Drug Co.

Wigg—"That fellow Bjones is a pretty poor specimen." Wagg—"Yes, he's enough to make a monkey blush for shame at the Darwinian theory of evolution."

Mr Otto Paul, Milwaukee, Wis., says: "Foley's Honey and Tar is still more than the best. He writes us, 'All those that bought it think it is the best for coughs and colds they ever had and I think it is still more than the best. Our baby had a bad cold and it cured him in one day. Please accept thanks.' Howard Gardner.

"Love is the tender passion," remarked the Wise Guy. "Yes, if it is reciprocated," replied the Simple Mug. "If it isn't it's pretty tough."

SHE WAS NO SHIRK.

And She Had No Patience With Modern Cooking Methods.

Different persons have varying ideas as to what constitutes a good housekeeper. The ideas held by Mrs. Dana Goodyear were her own and firmly fixed. "I've got nothing to say against those that follow after these modern notions of cooking, like the minister's wife," she remarked one day, "but all I can state is that her ways aren't my ways and never would be."

"She's been to a city cooking school, I hear," said Mrs. Goodyear's visitor, "and does her work all the newfangled ways."

"I presume so," and Mrs. Goodyear's chin took on its firmest expression. "She was telling me yesterday how she could do a morning's baking—bread, cake, pies—and get the regular dinner, too, and only have three bowls and three or four spoons to wash when she's done aside from the dinner dishes. She told me 'twas by cooking school system she did it, planning and rinsing out as she worked, and so on."

"She seemed real proud of it, but it struck me as a pretty slack way of doing kitchen work. There isn't a lazy bone in my body, if I do say it, and when I've done a Saturday's baking I'm safe to say that there's hardly a bowl left on my pantry shelves, and I've got a good hour's work before me right in my kitchen sink where anybody that comes in can see it."—Youth's Companion.

Both Speedy and Effective.

This indicates the action of Foley Kidney Pills as S. Parsons, Battle Creek, Mich., illustrates: "I have been afflicted with a severe case of kidney and bladder trouble for which I found no relief until I used Foley Kidney Pills. These cured me entirely of all my ailments. I was troubled with backaches and severe shooting pains with annoying urinary irregularities. The steady use of Foley Kidney Pills rid me entirely of all my former troubles. They have my highest recommendation." Howard Gardner.

Why Woodrow Wilson Shaved. New York Tribune.

As is well known, Woodrow Wilson has a clean-shaven face. But it was not always thus. Once, when Dr. Wilson was a young lawyer, pleading a cause in a North Carolina court, he perceived that his most attentive listener was the Sheriff of the county, who sat with his feet on the stove and with his eyes on the attorney. The young advocate was greatly encouraged by the interest manifested by so distinguished an officer and was encouraged to increase his efforts still further to enchain the attention of that auditor. When he had finished his address with a rounded period of glowing eloquence he stepped toward the Sheriff to receive his encomiums. It was a dreadful shock to him when that official drawled out: "Say, Wilson, do you know that one of your side whiskers is shorter than the other?" The future president of Princeton was so disgusted that he shaved off his beard.

Dressed in "Black and Yellow."

Not "Football Colors" but the color of the carton containing Foley's Honey and Tar the best and safest remedy for all coughs and colds. Do not accept a substitute but see that you get the genuine Foley's Honey and Tar in a yellow carton with black letters. Howard Gardner.

Who He Was.

The "cub" reporter is the greenest reporter on the staff of a newspaper. When anything particularly stupid happens on the paper he is the one first to be accused, and he is usually rightly accused. The only salvation for him is to improve, which he does in nine cases out of a dozen. The Boston Journal told recently of an amusing "break" of a wholly innocent nature which a certain cub made.

The reporter had been sent to a suburb to report a sermon. He arrived late, near the close of the service and took a seat near the door. When the last hymn was over he asked his neighbor, an elderly gentleman: "What was the text of the sermon?" "Who art thou?" answered the parishioner. "Boston reporter," replied the other. The man smiled. Subsequently he told the preacher, who next Sunday told the congregation—at the cub's expense.

Hexamethylenetetramine.

Is the name of a German chemical, one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and anti-septic for the urine. Take Foley's Kidney Remedy promptly at the first sign of kidney trouble and avoid a serious malady. Howard Gardner.

Wigwag—"Why don't you sign the pledge?" Guzzler—"I've done it so often I've gotten so I don't believe in signs."

A Household Medicine.

To be really valuable must show equally good results from each member of the family using it. Foley's Honey and Tar does just this. Whether for children or grown persons Foley's Honey and Tar is best and safest for all coughs and colds. Howard Gardner.

A WOMAN TO BE PRETTY

Must Have Lustrous and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the foot of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. The election is over and now Greensboro should go after the interurban and other good things that it can get.

Oh, no, the agony is not all over. There are some City Aldermen—or maybe it will be Commissioners—to be elected next Spring.

The effort on the eve of the election to misrepresent the attitude of Maj. C. M. Stedman towards labor was thoroughly discredited to Mr. Blair's campaign managers.

How about the new city lights? We hope it will not take as long to decide on their location as it did to decide what kind to get. This town has been in darkness long enough.

It is hard to keep the wish from being father to the thought. Says the Philadelphia Record, speaking of election forecasts, "As a rule the guessers guess as they hope, not as they fear; not even as they are willing to bet."

The Danville Register is awfully precise as to its grammar, but is less squeamish as to its spelling. How's this, taken from a heading in yesterday's Register? "Dix Replies to Rival's Queries."

The astonishing official report comes from Chicago that the city's new \$5,000,000 city hall was built without graft. Will wonders never cease?—Richmond News-Leader.

The News-Leader doesn't want to be hasty in its conclusions. Hasn't it often heard of "official reports" that would bear some considerable scrutiny?

From its experience with express companies, the general public is quite prepared to believe that there is justice in the claims of the striking expressmen in New York City. The express companies appear to think that the object of being in business is to charge all the traffic will bear and then some.

A Raleigh preacher on Sunday prefaced his remarks on his text by advocating the scratching of tickets in yesterday's election. In other words, he advocated independence in politics. There is quite a large independent vote in all communities. There is nothing wrong in being independent in one's politics if one desires to. But one cannot be independent and at the same time seek to run things in one or another of the political parties. In deciding to become independent in politics one surrenders certain privileges beyond any question.

Yes, the election is over, but the tariff we have with us. A Yale professor added something to the sum of human knowledge on this ever present problem by overthrowing the proposition advanced by Col. Roosevelt to the effect that the advance in the cost of living was a reflection of world-wide tendencies and the tariff had nothing to do with it. Says the Philadelphia Record:

The Massachusetts commission which made a report on the increased cost of living acquitted the tariff, of course. A commission created in Senator Lodge's State, by a Republican administration, could not do otherwise. And yet, pledged to acquit the tariff as it was, it admitted facts which enable Henry Wade Rogers, dean of the Yale Law School, to refute Mr. Roosevelt's proposition that the cost of living has advanced everywhere, and therefore our tariff can have nothing to do with it. Dean Rogers quotes from the Massachusetts report that the cost of food in Massachusetts has increased 60 per cent, while in England it has advanced half of that or less. If the cost of living has increased under conditions that exist all over the world, why, asks the dean, has the cost increased in Massachusetts so much more than in England?

CROCODILE TEARS.

Old Legends That the Brutes Show Them Over Their Prey.

There was an old story, to which we find constant reference in Elizabethan writers, that crocodiles wept over their prey. No doubt the legend arose because the crocodile possesses largely developed lachrymal glands, but it appears in various amusing forms.

As early as the fourteenth century, in "Mandeville's Travels," we find: "In that contrie ben great plentie of Cokodrilles. These serpentes slen men, and thei eten hem wepyng."

An odd turn is given to the tale by the narrator of one of Sir John Hawkins' voyages. Whether he was a married man or not we do not know, but he writes: "His nature is ever, when he would have his prey, to cry and sob like a Christian body, to provoke them to come to him, and then he snatched at them! And thereupon came this proverb, that is applied unto women when they weep. Lachrymæ crocodilli, the meaning whereof is, that as the crocodile when he crieth goeth them about most to deceive, so doth a woman most commonly when she weepeth."

In Fuller's "Worthies" there is the added information that "the crocodile's tears are never true save when he is forced where saffron groweth." Shakespeare, Spenser and Dryden allude to this old world fancy.

LOVELY LUCERNE.

The Tourist Center of the "Playground of Europe."

Lucerne, situated in the heart of Switzerland, stands, as it were, enshrined amid the grandest and most picturesque features of Alpine scenery and is, of course, the tourist center par excellence of the "Playground of Europe," three main lines of railway converging on the famous town beside the lake. Nor could nature, indeed, have well done more for "Lovely Lucerne," as all the world acclaims it (declares a writer in London Sketch). On one side stands the Rigi, on the other Pilatus (7,000 feet high), with between them the fair, shimmering expanse of the Lake of the Four Cantons and beyond it again a widespread panorama of the glaciers and snow peaked ranges of the Alps.

From the Rigi (6,000 feet), easily climbed by aid of its famous "mountain train" the view takes in the Bernina, Gothard, Unterwalden and Bernese Alps, stretching far and wide, from the Sents in the east to the Blumalp in the west, and to northward the Jura mountains, the Black forest and the Vosges barrier between Frank and Teuton. From the Rigi some fourteen lakes are visible on a clear day, among them Sempach, by the shores of which was fought the famous battle where the Swiss won their freedom.

Naming a Yacht.

The naming of a book is no holiday task, and authors particularly proud of a title are tolerably sure to discover that it has been already used. But the naming of a yacht is almost a greater perplexity. Plagiarism may in this case result in practical confusion carrying the most awkward consequences, and not all titles to which, in search of variety, recourse has already been had are satisfactory from all points of view. Not long ago, for instance, a very grave British cabinet minister, perhaps wishing for once to be sprightly, called his yacht Elrit. He had not consulted his family, who were, however, quite sure, he thought, to delight in his outburst of gaiety. However, his daughters naturally remarked how very disagreeable it would be to go ashore with that label around their hats.

Where Ears Grow Sharp.

A French balloonist has recorded the clearness with which sounds coming from the surface of the ground can be heard at a high altitude. At the height of 5,000 feet the ringing of horses' hoofs on a hard road was clearly audible. At 4,000 feet the splashing sound made by ducks in a pond was heard. The barking of dogs and the crowing of cocks could be heard at seven or eight thousand feet. These sounds penetrated through a white floor of cloud that hid the earth from sight, says Harper's Weekly. In the perfect silence of the air the investigator was startled by what seemed stealthy footsteps close at hand. It was ascertained that this noise was caused by the stretching of the ropes and the yielding of the silk as the balloon continued to expand.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Cows That Never Drink.

The "wild cow" of Arabia, in reality an antelope, the Beatrix oryx, is said never to drink, which is probably correct, for unless these animals can descend the wells they can find no drinking water for ten months in the year. There is no surface water, and rain falls but precariously during the winter. Only once during my journey did I find a pool of rainwater, caught in a hollow rock, and even this I should have passed by without knowing of its existence had not my camels sniffed it from a distance and obstinately refused to be turned from going in that direction. These antelope, however, are provided by nature with a curious food supply, especially designed as a thirst quencher. This is a parasite which grows on the roots of the desert bushes and forms a long spadix full of water and juice. The antelope dig deep holes in the sand in order to get at these.—Wide World Magazine.

Easily Explained.

"They have to admit in the old world," said a New York theatrical man, "that we've got them beaten on every count. Talk to them about the matter and they can only quibble."
"Oh, yes," said an English banker to me the other day, "you've got a great country, the greatest country in the world; there's no denying that."
"Then he gave a nasty laugh."
"But look at your fires," he said. "Your terrible fires are a disgrace to mankind."
"Oh, our fires," said I, "are due to the friction caused by our rapid growth."

Man's Early Building.

The ruins of successive human habitations unearthed in Asia show how man advanced from primeval savagery to the pomp of Babylon and Nineveh. First he improved the caves in which he dwelt by leveling the floors and cutting windows to give him light. Afterward he constructed entirely artificial habitations for himself, at first roughly made tents of boughs and leaves, then huts of mud and finally dwellings of wood and stone.

Spiteful.

"Yes," said the engaged girl, "Dick is very methodical. He gives me one kiss when he comes and two when he goes away."
"That's always been his way," returned her dearest friend. "I've heard lots of girls comment on it."
Thus it happens that they cease to speak to each other.

Fell In With the Argument.

"The leading question," said the colonel, "is the financial one."
"Right," replied the major, "and I was just about to ask you to add \$5 to that \$10 I borrowed from you yesterday."—Uncle Remus Magazine.

"The easiest thing I know of," says the philosopher of folly, "is to begin to save up some money next month."—Cleveland Leader.

Protection In Germany.

Philadelphia Record.
German workmen are enjoying to the full the helpful operation of a scientific protective tariff; but, like American workmen, they are getting exceedingly tired and dubious as to the advantages of the system. Beggary is steadily increasing in the German cities. The cost of living has been unduly advanced. There is great suffering in many parts of the Empire. Imperial statistics are published showing as a result of the tariff on imported meats that in the year 1909 there were 151,357 horses and donkeys slaughtered and sold for food.

Is This a Good Time to Buy Property?

We are often asked this question. Is this a good time to buy property. Or, is this a good time to sell property. Our reply invariably is this: The time to buy is when the other fellow wants to sell, or, the time to sell is when the other wants to buy.

On Thursday of this week the other fellow wants to sell; in fact has to sell for a division. So we unhesitatingly say—this is the time to buy—and too, this is a particularly good time to buy, as business is improving in all lines, and real estate will surely be higher and in greater demand.

Attend the auction sale of the "Crutchfield property" Thursday, Nov. 10, 2 p. m. and buy one or more of the houses and lots and our word for it, you will make money on it.

After the exercises, there will be a fish pond filled with various articles, both useful and ornamental, to be fished for. Each person who wishes to fish, will be supplied with hook and line. The ladies of the association will serve coffee, cakes, and various kind of lunches. The proceeds to go to the piano fund. The association extends a hearty welcome to all and any one wishing to contribute articles for the fish pond will please notify Mrs. J. C. Anderson, Phone 703—2 rings. Or Mrs. Thos. D. Hardin, Phone 835.

Anything contributed will be highly appreciated, as we are all working for the betterment of the school and bright-

en the school days of our boys and girls attending McIver school.

RECEPTION TO REV. AND MRS. SHUFORD PEELER.

Interesting Social Event Last Night At First Reformed Church.

In the Sunday school room of the First Reformed church last night, an enjoyable and largely attended reception was given in honor of the pastor, Rev. Shuford Peeler, and his bride. There were from 150 to 200 members and friends present.

A program of music was rendered, including a quartet selection by Messrs. Hamilton, Ooe, Cheek and Long. There was instrumental music by Miss Esther Low and Mr. W. F. Low and Mr. E. D. Clapp gave a comical discourse that was thoroughly amusing.

A number of Mr. Peeler's brother ministers from the city were present as well as Rev. A. S. Peeler, of Winston, and Rev. Clarence Woods, of Thomasville.

Refreshments, consisting of ice cream, cake and fruits, were served.

A CONFERENCE ON METHODS

Baptist Missionary Workers Confer.

Leading Women of the Denomination in the Central Portion of the State—Among Those Present Is the President of the Southern Baptist Missionary Union—Fine Address by Rev. C. E. Maddy.

A Conference on Missionary Methods by the Baptist women of the Greensboro Division of the Baptist Missionary Union commenced yesterday morning at ten o'clock at the First Baptist church. It is being presided over by the superin- tendent of this district, Mrs. P. S. Vann, of Lexington. The territory comprised in the Greensboro Division includes four- teen associations and that portion of the State from Raleigh on the east to Lin- wood and Wilkesboro on the South and West. From the various societies in the towns and cities of this territory dele- gates are in attendance upon the con- ference.

The program opened yesterday morn- ing with devotional exercises conducted by Mrs. W. N. Jones, of Raleigh. Miss Elizabeth Briggs, of Raleigh, was on the program for these services and for one or more papers, but was prevented by sickness from being present.

Following the devotional services Mrs. Jones made a talk on "The Purpose and Hope of the Conference."

Following Mrs. Jones' talk, Mrs. J. Y. Killian, of Trenton, gave a helpful talk on "The Bible in the Societies." Mrs. Killian gave a blackboard illustration of ideal programs.

At yesterday afternoon's session, the services opened with silent prayer, fol- lowed by a chain of prayer. Then came a most helpful address on "Personal Service" by Miss Fannie E. S. Heck, of Raleigh, president of the Missionary Union of the State and also president of the Southern Baptist Missionary Union.

Mrs. D. Rich, of Winston, then dis- cussed the social features in the Wo- man's Missionary Society.

Last night the conference heard a splendid address on "Home Missions" by Rev. C. E. Maddy, of Statesville. This address made a profound impres- sion on the members of the conference several of them saying that they had never heard so illuminating a treatment of the subject. Mr. Maddy argued pow- erfully for home missions as a base of supplies for the prosecution of foreign missions. He compared the conquest of the world for Christ as similar in some respects to the territorial expansion of this country. Just as this government established its coaling stations and bases of supplies so the strong home churches were necessary for the growth and spread of foreign missions.

The program for today follows:
Wednesday Morning, 9:30.
Devotional Exercises—Mrs. E. L. Mid- dleton.
Society Expansion—Mrs. Chas. Sice- loff.

Mission Study: (a) In the Home; (b) In the Monthly Meetings—Miss Heck; (c) In the Mission Study Class—Mrs. Killian.

Difficulties and How to Overcome Them—Miss Briggs.
Social Features—Mrs. D. Rich.
The Missionary Book-Shelf—Miss Heck.

Wednesday Afternoon, 2:30.
Music—Prayer.

Mission Giving: (a) How Should a Society Divide Its Funds—Mrs. P. W. Glidewell. (b) The Tenth—Miss Heck. Our School Girls—Mrs. Killian. Separate Conference: W. M. S., Y. W. A., Sunbeams and Royal Ambassadors.

Wednesday Evening, 7:30.
Music—Quartet by Mesdames Foushee, Stone, Albright and Miss Wood.
Foreign Missions—Rev. Dr. W. C. Tyree, of Raleigh.

This afternoon at 4 o'clock, starting at the church, the delegates will be taken for a drive over the city.

Even in the Middle Ages there were probably suburban Knights.

THE FRESHMEN HERE SATURDAY

Boys From University Coming to Greensboro With Blood In Their Eyes—Say They Are Going to Have Revenge For Former Defeats—High School Boys Confident.

Next Saturday at Cone Park the plucky eleven of the Greensboro High School will try for honors with the heavy Freshman team from the University of North Carolina. The Fresh- men have a strong team and are com- ing determined, if possible, to carry back the scalp of the local High School team. The High School has twice carried away victory when it was "up against" the Freshmen. It is going to maintain that good record if possible.

In a letter to Mr. King the manager of the Freshman team had the following to say:

"The Freshmen team seems in a fair way of winning this year's class cham- pionship, having last week defeated the strong team of the Senior class. The Seniors throughout their four years of college football have tasted defeat but twice before; one of the licking being administered by the Greensboro High School. Earlier in the season we shut out the team from Bingham, Mebane, by the score of 30 to 0. Our team and I may add, the class and college are looking forward to the game with the Greensboro High School with a great deal of interest. Twice already Fresh- man teams from the University have met defeat at the hands of this school. Saturday the Freshman class will send to Greensboro a team that bids fair to reverse previous records and return with the much-longed-for scalp of the plucky little high school.

"Those who will go up to witness the game are Albert Wilson, Harry Grims- ley, Gray Merritt, Robert King, Flem- ing Weaver, Roy Armfield, William Graves, and others of whom we do not have the names."

Below is the line up of the two teams:

DIED LAST NIGHT.

Little Son of Mr. and Mrs. C. W. Stro- har Passes Away After Brief Illness.

Garrett Charles Strohbar, age 3 years, 4 months, the oldest son of Mr. and Mrs. Cecil W. Strohbar, died at 7:30 o'clock last night at the residence of his par- ents, 301 Wainman street, after an ill- ness of only 4 days with pneumonia and complications.

The funeral will be held at St. Bened- ict's Roman Catholic church, this af- ternoon. Garrett was an unusually bright child and the idol of the house- hold. Mr. and Mrs. Strohbar came to Greensboro from New Orleans early in the present year and have made num- erous friends, all of whom sympathize with them in their great sorrow.

Came Up To Vote.

Dr. J. Y. Joyner, State superintendent of Public Instruction, came up from Raleigh to participate in the election yesterday. Dr. Joyner, while his official duties requires that his headquarters be in Raleigh, still retains Guilford as home and is always present on election day.

Child Dies From Burns.

Yesterday afternoon at the residence of Mr. and Mrs. J. B. Caviness, 3 Cypress street, Proximity, Rev. K. C. Horner conducted the funeral of the seventeen months old son of Mr. and Mrs. Caviness. The little child died as a result of burns. It was playing in the fire with a broom, the clothing catching fire from the broom.

Stole a Coat Suit.

In Municipal Court yesterday morning the only case that claimed the attention of Judge Eure was one in which Etha Gray, colored, was charged with steal- ing a coat suit, with accessories to match, from a mutual friend. After hearing the evidence Judge Eure sent- enced her to the workhouse for six months.

Odd Prices for Shoes

"You certainly have funny prices on your shoes," said one of our customers the other day when we showed him a pair of our old-fashioned plain toe calf skin shoes marked to sell at \$3.25. Some of our footwear is sold at prices just a little "uncommon"—that's a fact, but in every instance a careful comparison will show that the prices are uncommonly low. That three-twenty-five calfskin shoe, for instance, is not sold anywhere else at less than three-fifty, and many stores get four dollars for the same grade. When you find that our 90-cent, \$1.10, and \$1.35 children's shoes are quite generally sold for \$1, \$1.25 and \$1.50 elsewhere, you come to like and appreciate our odd way of pricing them. \$2.10 for best quality men's home-made wholestock shoes is a funny price, but you know if you have taken the trouble to look around that they are quite gen- erally sold at \$2.25 or more by other stores.

Every year we sell hundreds of pairs of men's and women's shoes at \$2.25—another rather unusual price, and the men and women who buy and wear these \$2.25 shoes will testify that they are

just as good and look just as nice as the average \$2.50 shoes sold in "exclusive" shoe stores.

Many ladies in this city who wear our Sherwood and La France shoes, sold at \$2.50, \$3.00, \$3.50 and \$4.00 will testify to their excellent fitting and wearing qualities and our men's \$3.50, \$4.00 and \$5.00 shoes are constantly growing in popularity.

You can find a good many lines of goods here that are somewhat neglected by other city stores these days; for in- stance, wool jeans and other woollen piece goods for suits and pants; goods for work shirts and dress shirts, knit- ting wool and knitting cotton, cotton batting for comforts, wool and cotton flannels, floor oil cloth, table oil cloth, etc. On our second floor, in addition to carpets, rugs, matting, window shades and lace curtains, we carry a big stock of blankets and comforts of many grades and kinds; also a nice line of trunks. Drop in and see how busy we are. Our friends tell us this is one of the best lighted and most comfortable stores in the city now.

"He's All Right; He Has Money in the Bank"

How many times has each of us heard this or similar expression! If we go around much we hear it nearly every day. And yet so few of us really take it to heart.

If a young man gets into trouble, a bank account will pull him out. If he gets sick or injured it will pay the doctor's or druggist's bills. If he wants to buy a few shares of stock in the Company for which he works, and thereby strengthen his position, he can do it. All these things, and a hundred more, can be done with a snug bank account—but one must SAVE in order to have that account.

Better start today and save your money. We pay interest at the rate of 4 per cent, and assure the absolute safety of every dollar deposited here.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

SOCIETY AT MARKET.

Washington Families Go Regularly to Purchase Household Supplies.

Wash. Cor. New York American.

"Domestic science" has many votaries in Washington society this season following the good example of Mrs. Taft who, unlike many women of literary and musical talent, is a good housekeeper as well. Mrs. Taft has revived the good old White House custom of visiting personally once or twice a week the attractive market that is as historic as the Capitol itself, and going about choosing titbits and dainties for the Presidential table.

Her example is being followed and the market on big days is a regular rendezvous for society. Many of the Four Hundred load their automobiles and carriages with baskets of fruits and vegetables and even meat. Among them are Mrs. Sherman, wife of the Vice-President; Mrs. Robert Roosevelt, Mrs. Francis Berger Moran and Mrs. A. C. Barney.

The belles and debutantes have organized a domestic science club. Twice a week they make cakes, desserts, salads and entrees. The club members plan to give a luncheon some time this winter. They will invite their skeptical friends to a meal prepared entirely by society cooks.

Saves an Iowa Man's Life.

The very grave seemed to yawn before Robert Madsen, of West Burlington, Iowa, when, after seven weeks in the hospital, four of the best physicians gave him up. Then was shown the marvelous curative power of Electric Bitters. For, after eight months of frightful suffering from liver trouble and yellow jaundice, getting no help from other remedies or doctors, five bottles of this matchless medicine completely cured him. Its positively guaranteed for Stomach, Liver or Kidney troubles and never disappoints. Only 50 c. at Farise-Klutze Drug Co.

A BIG SHIP, SURE.

Almost One-Sixth of a Mile Long is the Olympic.

New York World.

Where will the development of the modern steamship end? Think of a ship almost one-sixth of a mile long, with a registered tonnage of 45,000 and displacement of 66,000. It's the Olympic, the new White Star liner launched at Belfast, Ireland, October 20. This picture is from the first photograph taken at the launching which has reached this country. The most startling thing about the Olympic, perhaps, is the fact that it has nine steel decks. One of the upper decks is to be completely inclosed as a ballroom, and this can also be used as a theatre or skating rink. Imagine roller skating in mid-ocean. The Olympic will carry 5,000 passengers in addition to a crew of about 600 men. The ship exceeds by almost 100 feet in length and 13,000 tons any other ship afloat. The Olympic will be fitted with both turbine and reciprocating engines and will have a speed of 23 knots.

Dad, did you ever use Goose Grease for your old stiff limbs? Best in the world, try it. Gardner sells it.

Not For Fashion's Sake.

The criminal law of England was formerly marked by indiscriminating severity. Theft of an article valued above 10 shillings was punished with death. In writing about "Sweet Hampstead and Its Associations" Mrs. White records a pleasant thing of Lord Mansfield, who, as a rule, leaned to the side of mercy. It was Lord Mansfield who directed a jury to find a stolen trinket less in value than 10 shillings in order that the thief might escape capital punishment. To this the jeweler who prosecuted demurred, asserting that the fashion of the thing had cost him twice that money.

"Gentlemen," replied the judge, with grave solemnity, "we ourselves stand in need of mercy. Let us not hang a man for the fashion's sake!"

MacMahon's Epigram.

When Marshal MacMahon in the Crimean campaign took the Malakoff by storm and wrote his celebrated dispatch, "J'y suis; j'y reste" ("Here I am; here I stay"), these words made him famous all over the world. Yet his friends said that the worthy soldier had written them in the most matter of fact manner, with no thought of phrase making. The most surprised person over the success of this epigram was MacMahon himself.

Helping Her Out.

"Such being the case, madam, don't you think you'd better have an old, experienced fowl?"—Louisville Courier-Journal.

Woman's Friend

Nearly all women suffer at times from female ailments. Some women suffer more acutely and more constantly than others. But whether you have little pain or whether you suffer intensely, you should take Wine of Cardui and get relief.

Cardui is a safe, natural medicine, for women, prepared scientifically from harmless vegetable ingredients. It acts easily on the female organs and gives strength and tone to the whole system.

TAKE CARDUI

The Woman's Tonic

Mrs. Verna Wallace, of Sanger, Tex., tried Cardui. She writes: "Cardui has done more for me than I can describe. Last spring I was taken with female inflammation and consulted a doctor, but to no avail, so I took Cardui, and inside of three days, I was able to do my housework. Since then my trouble has never returned." Try it.

HOW TO CURE RHEUMATISM

It is An Internal Disease And Requires An Internal Remedy.

The cause of rheumatism and kindred diseases is an excess of uric acid in the blood. To cure this terrible disease this acid must be expelled and the system so regulated that no more acid will be formed in excessive quantities. Rheumatism is an internal disease and requires an internal remedy. RUBBING with oils and Liniments WILL NOT CURE, affords only temporary relief at best, causes you to delay the proper treatment, and allows the malady to get a hold on you. Liniments may ease the pain, but they will not more cure Rheumatism than paint will change the fiber of rotten wood.

Science has at last discovered a perfect and complete cure, which is called Rheumacide. Tested in hundreds of cases, it has effected the most marvelous cures; we believe it will cure you. Rheumacide gets at the joints from the inside, sweeps the poisons out of the system, tones up the stomach, regulates the liver and kidneys and makes you well all over. Rheumacide strikes the root of the disease and removes its cause. This splendid remedy is sold by druggists and dealers generally at 50c. and \$1 a bottle. In Tablet form at 25c. and 50c. a package. Write to Bobbitt Chemical Co., Baltimore, Md. Booklet free. Tablets sent by mail.

For sale by Howard Gardner, Druggist.

Cured Splint

"I have used Sloan's Liniment on a fine mare for splint and cured her. This makes the third horse I've cured."

Have recommended it to my neighbors for thrush and they say it is fine. I find it the best Liniment I ever used. I keep on hand your Sure Colic Cure for myself and neighbors, and I can certainly recommend it for Colic. —S. E. SMITH, McDonough, Ga.

Cured Thrush.

Mr. R. W. PARRISH, of Bristol, Ind., R. No. 2, writes: "I have used lots of your Liniment for horses and myself. It is the best Liniment in the world. I cured one of my horses of thrush. Her feet were rotten; the frogs came out; she laid down most of the time. I thought she would die, but I used the Liniment as directed and she never lies down in the daytime now."

SLOAN'S LINIMENT

MATRIMONY IN LONDON.

The Favorite Age for Girls Marrying is 21 Years.

Some interesting facts about life in London, particularly those dealing with marriage, are given in the latest issue of the London Statistics, even though, owing to the labor connected with its compilation, the book deals only with figures relating to the year 1908. From this bulky tome one learns that the London bachelor marries five years earlier than the bachelors of Berlin or Paris; but the women of these continental cities marry at an earlier age than do those of London.

Out of 33,000 London marriages recorded in 1908, 24,000 were those of people between the ages of 20 and 25 years. Out of the total number married, 2,279 were girls under 21 years. One of them was under the age of 16 years and her husband was a boy of 20 years.

The best marrying age for a London girl would seem to be 21 years, for no fewer than 14,800 girls of that age were married in 1908. After a woman reaches the age of 25 years her prospects of marriage appear to decline, and at 45 years a spinster's chance are almost nil. In 1908 only 118 of that age were married in London. Widows, however, seem to be more in favor. Forty-three young widows of 21 years of age were married to bachelors, most of whom were under 30 years of age.

The best remarrying age for a widow is 35 years. A fourth of those who remarried were of that age. The youngest widow who remarried was a boy of 19 years, and he married a spinster. The youngest widower who married a widow was a young man of 21 years, who married a woman of 25 years.

Shall Women Vote?

If they did, millions would vote Dr. King's New Life Pills the true remedy for women. For banishing dull, fagged feelings, backache or headache, constipation, dispelling colds, imparting appetite and toning up the system, they're unequalled. Easy, safe, sure. 25c at Fariss-Klutz Drug Co.

KING MANUEL IN ENGLAND.

At His Door is Relic of Another Overturned Throne.

King Manuel, who is spending the early days of his exile in England, at Woodnorton, the county house of the Duke of Orleans, will still be known in that country as King Manuel and not by any of his minor titles. One of the most interesting sights at Woodnorton are the wonderful gilded gates that once stood before the palace at Versailles. The fleur-de-lis is carved in high relief upon the massive stone side pillars, and the same emblem dominates the elaborate design worked out in iron by the old French craftsmen.

The house is far from being a palace. At the same time it is impossible to ignore the royal pretensions of the establishment. The very electric bell pushes on the front door exhibit the fleur-de-lis in bas relief, and the arms of the royal house of France are emblazoned again and again upon the house front.

King Manuel and Queen Amelie will, of course, only be temporarily housed at Woodnorton. They will probably set up their own establishment at Craycombe, an old house on the Duke of Orleans' estate, perched on a hill among thick game woods.

Good Results Always Follow.

Elephants in Captivity.

The trainer flashed for an instant his dark lantern on the long line of elephants.

"They are asleep," he said. "In captivity elephants always sleep standing."

"Why is that?" the visitor asked. "They lie down to sleep in the jungle."

"Yes," said the trainer. "I don't know why it is. But you'll never see a captive elephant sleep lying down. Some people say a captive elephant never really sleeps—sleeps sound, I mean—at all. He never has complete confidence, you know. He grieves. He longs to be free. Why, as a matter of fact, this light, staid sleep of his only lasts about three hours at that. All the rest of the night he rocks from side to side in the dark."—Cincinnati Enquirer.

IN HONOR OF MISS DICK.

Mrs. Carlsen Hostess At Delightful Reception Yesterday Afternoon.

Yesterday afternoon Mrs. C. I. Carlsen was the hostess at a delightful reception in honor of Miss Sadie Dick, who is to be married to Mr. Cummins Mebane on Nov. 16, and her guest, Miss Louise Coggins, of Newberry, S. C. A large number of guests called during the afternoon and the occasion was one of pleasure for all.

The guests were met at the front door by little Miss Margaret Vaughn, while Mrs. John A. Gilmer, Jr., received at the parlor door. The decorations in the parlor were effected with autumn leaves. Here the hostess, the guests of honor, Mrs. John Kleemeier, Misses Eloise Dick, May Norris Richardson and Nell Causey received.

Mrs. J. A. Williams was stationed at the dining room door and ushered the guests into the dining room where Mrs. Irving Smith and Misses Alice Callum, Mal Shober and Myrtle Ham served cream from a punch bowl. The decorations in this room were yellow chrysanthemums.

In the tea room Mrs. L. Richardson and Mrs. C. O. Forbis served tea, being assisted by Misses Mary Yates, Mary Callum and Lottie Stover, who served sandwiches.

Notes of Chrysanthemum Show.

Mrs. Dr. J. P. Turner's Sunday school class will have kitchen aprons on sale at the chrysanthemum show.

Everybody who is going to bring cakes and bread for the Chrysanthemum show please bring it on Thursday not later than eleven o'clock.

The serving of turkey dinners will commence at 12 o'clock Thursday.

Ticket Office Being Enlarged.

The ticket office in the Southern passenger station is being enlarged by the addition of a panel on either side. The work was begun yesterday. For some time Ticket Agent McGlamery and assistants have been cramped for lack of room and with the enlarged office the business in rush hours can be handled to better advantage.

His Guess.

RESTRAINING ORDER ISSUED

Federal Court Halts Street Work of City of Burlington.

Judge Jas. E. Boyd has issued a restraining order against the City of Burlington whereby work on a certain street is temporarily stopped. Deputy United States Marshal Miss Nessie Myrick served process on W. J. Thomas, street commissioner of Burlington, yesterday afternoon.

The city, through Commissioner Thomas, is preparing to construct a street across the tracks of the Southern Railway at a point where it, the Southern states, will materially interfere with the operation of the road and in shifting cars on the yards.

Judge Boyd issued a temporary restraining order and cited the defendants to appear before him on Saturday, Nov. 19, to show cause why an injunction should not be issued against the city.

Bound Over on White Slave Charge.

Deputy Marshal R. L. Blaylock returned yesterday from Charlotte where he attended the "white slave" case before U. S. Commissioner Cobb as the representative of Marshal Logan. Charles Quaster, who follows the county fairs, was bound over on the charge of engaging in the white slave traffic.

CYCLONE FORMATION.

The Mechanical Laws Are the Same as in a Whirlpool.

Any one can make the exact counterpart of a cyclone if he so desires. Of course a cyclone is caused by the air over a big area getting warm and light with small pressure. This air consequently tries to rise almost in a body and leaves a partial vacuum behind, but the outside cold air rushes in from all sides. Now, it is a scientific and mechanical truth that when a fluid runs in from all sides toward a central point it causes a whirlpool or rotation of the fluid. The exact analogy of a cyclone, then, although with the fluid water instead of air, is seen when the stopper is pulled out of the bottom of a basin full of water. An almost perfect vacuum, as far as the water is concerned, is caused by the water immediately over the stopper running out. The rest of the water rushes in from all directions, and a whirlpool is the result. There is one difference here from the air cyclone. In the air the force with which it rushes toward the center greatly compresses the air whirling at that point and makes it very dense—so dense, in fact, that a straw carried in the central whirl can be driven into a big block of wood without bending. Of course in a whirlpool the water is not compressed, remaining practically the same in density all the time. That is one highly important property of water; it is practically incompressible. Nevertheless it is very interesting to see the whirl form in a basin and know that the mechanical laws are the same as in the formation of a cyclone many miles wide.—Harper's Weekly.

A V. Sapp Picks Up Some Bargains in Baltimore

A. V. Sapp has just returned from Baltimore where he purchased another lot of twenty-five coat suits as good or better values than the first lot we had, not one of them worth less than \$20.00. They are on sale now at \$12.50 each, all sizes from 14 years to 42. We also have on hand ready for your inspection the greatest line of ready-trimmed hats that we have ever shown. Here we can save you money. We have just opened a case of blankets which we are selling at 65c. to \$2.00 pair, worth 40 per cent. more. While in Baltimore I picked up several small lots of merchandise which we will sell at less than its real value. Remember no matter what you want to buy "A. V. Sapp sells it cheaper." A Lucky Man

HOW often do we hear people say: "He is lucky." This is one of the popular errors which has gained a considerable foothold. The lucky man is the man who works diligently and uses careful judgment in handling his money. The richest men in the world were, strange to say, almost the poorest boys. There is no limit to what can be done in accumulating a substantial fortune if prudence and diligence are exercised.
